

Canal trip with LNBP

We drove to Braunston Marina our boat was called Guinevere and **two men helped us called Mike and Mark.**

This is me learning to steer the boat and also looking at a beautiful day and country.

This was my second time on a canal boat and I learned how to read the map and count the bridges along the way.

I got lots of learning in one day.

This is us mooring the boat to the side; mooring so that we could have lunch.
